LEVEL 5 Tool Control System™

BULK TOOL STORAGE

ORGANIZATION | VISIBILITY | ACCESS CONTROL | ASSET MANAGEMENT | AUTOMATION

Our Bulk Tool Storage system puts security and visibility within the reach of even large equipment. With keyless entry, flexible access doors and large, versatile storage space, our Bulk Tool Storage system keeps your tools in view and in the right hands.

FEATURES AND BENEFITS

"At-a-Glance" Storage

With a durable chrome finish and open cage design, it's easy to take inventory of your valuables from any vantage point – without ever entering the cage.

Controlled Security

The cage features a keyless entry system and a secondary door handle that latches at top and bottom to keep your tools secure. A convenient padlock security loop allows for easy audit control.

Keyless Entry System

The Snap-on keyless entry system allows for entry with badge or via keypad with at-the-box programming for up to 3,000 users. The system can be networked with LockView software.

Easy Access

Double doors open to a full 270 degrees for easy access and unobstructed view of the entire interior.

Storage Versatility

The roomy interior features three shelves to securely store portable tools, assembly parts or project components.

Portable or Stationary

Model L5BSCGP2460 features heavy-duty casters that swivel and lock for easy mobility, while model L5BSCGP24060S is designed to stay put.

PRODUCT SPECIFICATIONS

- Capacity of 900 to 1,800 lbs
- 2 year warranty
