MANAGEMENT

AUTOMATION

Designed to bring asset automation to irregularly shaped items, like extension cords, tools kitted in plastic or fabric carrying cases and personal protective equipment, the new Level 5 ATC Locker makes tracking larger tools and assets easy.

### FEATURES AND BENEFITS

- Track serialized items like torque wrenches, multimeters, micrometers and more
- Advanced RFID technology and proprietary software tracks Critical Industry workplace assets in real time
- Heavy duty metal shelves with foam bear the weight of larger tools and assets
- Onboard current allows for secure recharging and storage of power tools

#### Software Features

- Connects to L5 Connect software interface with same look/feel of operation
- Fully networkable and scalable with other Level 5 ATC units
- Comprehensive analysis, reporting and inventory tracking can be performed from administrator workstations located anywhere on the network in real time
- Reports are fully customizable and exportable to Excel or PDF

- Registers transactions in real time – both at the box and between the box and the admin client
- Real time communication includes email alerts when tools are used, when calibration is required, when tool status changes and lost or broken events
- Snap-on rechargeable batteries feature state-of-the-art circuit protection that prevents overload. For safety, the batteries will shutdown if they reach an upper heat limit, (well below critical stages) or if there is an accidental shortage

### SPECIFICATIONS

- 1 year electronics warranty
- Extended warranty available
- Unlimited number of assigned users
- Networking through Ethernet or wireless
- 1 copy of ATC software required for each administrator
- Available in a variety of colors: Red, Black, Blue, Yellow, Silver, Orange, and Green
